Allowable Subject Matter

Claims 36 – 74 are allowed. The following is an examiner's statement of reasons for allowance: The closest prior art references of Fell (U.S. 5,43,199), Mossi (U.S. 6,071,458), Leemon, et al. (U.S. 6,432,236), and Jackson (U.S. 5,954,917) all fail to teach, either alone or in combination, the structural elements as claimed by Applicant. Applicant has further argued that the references of Fell, Mossi and Leemon, et al. all fail to teach *a carriage assembly movably coupled to the base*. Examiner agrees that none of these references teach such a feature. In addition, with respect to the reference of Jackson, Jackson fails to teach *at least one roller being coupled with the carriage assembly*. The roller of Jackson is stationary and not attached to the carriage assembly.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
